JBVMM visiting Tishwin and experiencing harsh conditions caused by heavy rains

Assistant Secretary-General (ASG) for Office of Rule of Law and Security Institutions (OROLSI), Mr. Alexandre Zouev, and UN Police Adviser, Mr. Luis Carrilho, visited UNISFA from 5 to 7 August 2018. They were welcomed in Abyei by UNISFA officials, including UNMAS PM Mr. Leon Louw.

On Wednesday, 15 August, the Diffra Oil Installation (northern Abyei area) was attacked by a group of armed men, and four RPGs and one OG7 were fired at the installation, of which only one RPG exploded. The alleged leader of this armed group, Mohammed Alegn, is sought by the Sudanese Armed Forces (SAF) for various crimes. The Diffra Oil Installation is a sensitive issue, as it is protected by armed Sudanese Oil Police, in breach of the peace agreements and Security Council resolutions for Abyei.

The UNISFA Principal Officer, Mr. Alexander Rose, met with the UN Principal Officer for the Sudan Integrated Operations Team (IOT), Ms. Daniela Krosiak, and the AU High Level Implementation Panel in Addis Ababa to discuss the UNISFA mandate reconfiguration, after a Joint Political and Security Mechanism (JPSM) meeting related to JBVMM was postponed due to the ongoing peace negotiations in South Sudan.

With its four Patrol Support Teams (PSTs), UNMAS is dedicated to supporting all the Ground Monitoring Missions (GMMs) in the SDBZ.

One PST from the JBVMM Sector 1 was sent to Abyei to respond to any emergency Explosive Ordnance Disposal (EOD) requirements in absence of demobilized IRACTs. Subsequent to the attack on the Diffra Oil Installation in northern Abyei, UNMAS PST retrieved and destroyed 4 unexploded ordnances (UXOs) from the UNISFA base in Diffra. Additional information provided by UNISFA states that, prior to UNMAS being informed, the UXOs were brought into the Diffra base by the Ethiopian 17th Battalion demining engineers.

JBVMM Sector 2 continued to undertake GMMs with two UNMAS PSTs, which are rotating on a bi-weekly basis. In August, 6 GMMs were conducted from Tishwin TS to the North Outer Limit and to the South Outer Limit of the Higlig-Bentiu border crossing corridor on 7, 12, 14, 26, 27, and 29 August 2018.

Neither weapons or ammunitions were confiscated in August, therefore no weapon and ammunition destruction was conducted at the WAM site, but maintenance of the site was carried out on a regular basis.

Mine Risk Education (MRE) activities in Abyei communities and schools were not held in August, due to the UNMAS partners' stand-down period and limitations posed by the rainy season.

Within UNISFA camp in Abyei, UNMAS delivered one landmine and ERW risk education session to 12 UNPOL and UNISFA military observers as part of their induction training.

Field Story:

Welcoming Guests From New York and Presenting UNMAS-UNISFA Activities & Success

Alexandre Zouev, United Nations Assistant Secretary-General for Rule of Law and Security Institutions in the Department of Peacekeeping Operations visited UNISFA from 5 to 7 August 2018. He was welcomed in Abyei by UNISFA officials, of which the UNMAS Programme Manager was part of.

Gifts given to Amira

Proud Amira with UNMAS cap received from ASG Zouev

UNMAS Programme Manager with Amira and local NGO Global Aid Hand

Mr. Zouev welcomed by UNISFA officials and UNMAS PM

During his visit, Mr. Zouev personally met and commended a local hero, Amira, for her bravery and her knowledge of safety guidelines that recently saved her and her friends' lives from an exploding hand grenade. He presented Amira with gifts from UNMAS and local NGO, Global Aid Hand.
